DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group II in Paper No. 5 is acknowledged.
2. Claims 1-31, 37-65 and 71-75 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 5.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 32, 35, 66, 67, 69 and 70 are finally rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wark et al, 5,809,987, as set forth in the Office action mailed 24 December 2004.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 34, 36, 68 and 70 are rejected under 35 U.S.C. 103(a) as being obvious over Wark et al '987 in view of Ishiwata et al, '023, as set forth in the Office action mailed 24 December 2004.

Response to Arguments

7. Applicant's arguments filed 10 November 2003 have been fully considered but they are not persuasive. Applicant argues that '987 is not prior art regarding the inventions of claims 32, 35, 66, 69 and 70 because at the time the present inventions of these claims were made the inventions of such claims in the present application and '987 were commonly owned by Micron Technology, Inc., Boise Idaho. While this may be true, it is not pertinent to the rejection under 35 USC 102(b), that requires "the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States." '987 was issued 22 September 1998, while the pending application was filed 06 June 2001, more than two years later.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3723

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
